

AMENDMENTS TO THE SPECIFICATION

Please replace paragraph 0106 of the as-filed specification (corresponding to paragraph 0110 of US Publication No. 2004/0057387) with the following replacement paragraph:

[0106] Referring to FIG. [[4]]3, in case that MBMS RAB is generated for an MBMS service, UTRAN RRC generates MBMS RNTI for an MBMS service (S1), and transfers MBMS RNTI for the corresponding MBMS service to the UTRAN MAC-c/sh (S2). Thus, UTRAN MAC-c/sh stores the MBMS RNTI (S3).

Please replace paragraph 0108 of the as-filed specification (corresponding to paragraph 0112 of US Publication No. 2004/0057387) with the following replacement paragraph:

[0108] As shown in FIG. [[5]]4, the UTRAN RRC transfers MBMS RNTI for an MBMS service to a terminal RRC through an RRC message (S4), the terminal RRC transfers MBMS RNTI to a terminal MAC-c/sh (S5). The terminal MAC-c/sh stores the MBMS RNTI (S6), and then the terminal RRC informs the UTRAN RRC that MBMS RNTI has been completely assigned through an RRC message (S7). Thereafter, the terminal can receive MBMS data for the corresponding MBMS service.
